

PRAY FOR A
**LET'S HAVE A
BLOCK
PARTY**

Why host a Block Party?

Be Intentional.

Start or continue the effort: Donuts and Egg hunts were a great start. This is another opportunity to create a space for fellowship and encourage the growth of new relationships.

There is no wrong way to do it.

Whether going all out or just playing some music and sharing light refreshments, this is an easy way to encourage relational growth and inclusion.

Facilitate Unity.

Our identities in Christ position us to bring harmony to people of different backgrounds and experiences. Lead in love.

How to Get Started!

Plan the block party.

Choose a date, time and where the party will be hosted. Invite a few neighbors to help plan the event: Will there be a bike parade? Fireworks? Snacks or picnic food? Games? Put together a schedule with times you will eat and do various activities. It can be as simple or as elaborate as you want it to be.

Spread the word.

Time to invite your neighbors! Decide how you will do this-drop off invitations at your neighbor's homes, use social media to invite them to the block party or get the conversation started by texting your neighbors all the information they will need to attend.

Party Day.

Today is your block party. Be the hands and feet of Christ as you engage and interact with your neighbors. Remember God put you in this place for a purpose.
